

An Appeal to all Indian Religionists / Support CAA-NRC

Namaste,

India as we know it today is a modern version of the ancient Indian civilization. For that reason, the Indian state is duty bound to protect and preserve both the values of the Indian civilization and also the various various Dharmic religions (namely Hinduism, Sikhism, Buddhism & Jainism) and native tribal cultures which give India these values. The Indian state is further duty bound to preserve the native cultures, traditions and festivals which bind this civilization together.

All of these will be under threat, and therefore the existence of the civilization itself would be at risk, if India's demographics were to change any further. The non-native or alien religions to our civilization, specifically Christianity and Islam are duty-bound by the theology of their respective religions — each of which ask for conversion of all native populations of the world into their respective religions. This is the ask of their respective gods (the Christian Abrahamic 'God' and Islamic 'Allah'). Devout Muslims and Christians, either duty bound, or driven by the fear of eternal punishment in (Christian) hell or 'dozakh' (Islamic hell), follow the diktat of their divine in working towards this goal unrelentingly and unapologetically.

The CAA-NRC are a first step towards preventing India from the threat of demographic change because of economics-motivated immigration from Bangladesh and the persecution-led immigration of Rohingyas from Myanmar via Bangladesh. The CAA also delivers on the 70-year old promise made by the Indian state to 'Indian Religionists' living in the lands partitioned by Muslims of pre-partition India.

Hence, please support it! Please support it with all your might — you money, writing skills (letters, articles), on-ground activism, social media activism — all of it! Talk to your

children and grandchildren and their friends. Tell them that if they do not drop their idealist ideas and ideals of non-discrimination against the alien religions of India, then they will be unable to enjoy the freedoms and expansive philosophies that India is. Remind them that Maharana Pratap, Shivaji Maharaj and Guru Gobind Singh died fighting for them to retain their Hindu/Indic names. Erase from their minds the 'secular viral idea' that these heroes of Indian civilization were fighting for land or territory.

Ask them the question - "If India becomes 80% Muslim, will India remain?". For it up with another question — "What is the big difference in values of pre-partition Muslims and the Muslims of modern India? Do modern Indian Muslims practice a different version of Islam than the one practiced in Pakistan or Bangladesh or even Saudi Arabia or Indonesia?". Even the journalists who write wonderful secular articles about Ganga-Jamuna tehzeeb agree on two points:

1. India is secular and plural because of Hindu values, NOT because of Islamic values
2. If India becomes Muslim majority then India will not remain a democratic country

Use the power of these arguments to remind your audience that it is precisely these reasons for which India must remain a Hindu-majority nation. In fact, take the argument further and conclude fearlessly and unabashedly, that for Hindu values to survive and thrive, and along with them minority rights and secular democratic values, India must protect itself constitutionally and become a Hindu-ideological nation. A Hindu Rashtra!

This is the final goal you must work towards! This is the yet incomplete work of the Indian civilization. This is Shivaji Maharaj's dream yet to be fulfilled vision of 'Hindavi Swarajya' - Hindu self-rule!

Take these arguments to social media and to mainstream print and TV media. Take these arguments to social gatherings.

Take these arguments to your colleagues and business peer-groups. Drop your coyness. Stop being self-conscious about your Muslim friends getting hurt. Remind them that they enjoy the freedoms that they do because of Hindus; and that you would not be able to enjoy similar freedoms if they become majority in India.

To preserve plural values that are the bedrock of India; the colourful festivals; the worship of rivers, forests and mountains; the dances and art forms of India; the grand architectural marvel of our temples; our spiritual philosophies and the eternal quest for the Divine — all of this will be lost if you do not act, now!

Support this government. Support CAB-NRC vociferously.

माँ भारती आपका पथ प्रशस्त करें।

Yours sincerely,

Rahul Dewan
